

Chattanooga's Kids on the Block

Using the power of puppetry , *our mission* is to educate children about social concerns and differences, giving them skills to stay and healthy.

My name is **Mark Riley**. I have Cerebral Palsy or you can call it **CP** for short. That means the muscles in my body don't all work. I use my cruiser to get around instead of walking, because my leg muscles don't work. It's cool to be different!!
